Action for Breast Cancer Foundation is an NGO that was set up in 2007, co-founded by Esther Sant and the late Helen Muscat MQR. The Committee consists of Esther Sant as Chairperson, Betty Hanley Lee, Jenny Oakley, Sarah Cardona, Lisa Mifsud and Noel Buttigieg Scicluna and Laura Sammut. The Foundation is affiliated with UICC and Reach to Recovery International and HEAL. ABCF works mainly in lobbying for better service and treatment for breast cancer patients. Amongst our enormous achievements, the Foundation lobbied successfully for the National Breast Screening which was inaugurated in October 2009. The supply quality are up to standard of the breast prosthesis which is given free of charge to all women that undergone mastectomy from the breast clinic. Another huge breakthrough was the provision of free Trastuzumab (HERCEPTIN) to HER positive breast cancer patients, because of its extremely high price patients were taking bank loans or mortgaging their homes. The Foundation also donates a free mastectomy brassiere to women who have undergone mastectomy as from April 2012. ABCF has co-funded a PhD study in breast cancer at the University of Malta, amounting to €55,000.00, thus it will be also focusing of research in breast cancer by Maltese scientists.

Victim Support Malta provides emotional support to victims of crime. In other words, VSM provides
the victim with the opportunity to talk about their negative experience, as often this needs to be done
at length in order for the victims to start their journey towards recovery. VSM also engages in lobbing
for a fairer criminal justice system which takes victims' rights into consideration. Additionally, victims often require practical help with other such as practical information about how
to apply for social benefits, assistance in filling up forms, liaising with other entities which they might
need to be referred to, assistance with seeking employment and sending out applications, assistance
with finding housing or temporary shelter, liaison with other professionals and other such matters.
Victims also require legal information and advice regarding their case. VSM provides services aimed
at addressing the needs of service users as outlined above. The vision of VSM is now entrenched in
the 2012 Directive on Victims’ Rights.
